

Nellie's Knotting App Review

I have reviewed over 30 different apps all about knot tying and have selected the best for you to choose from. Knot tying is something I think most of us wish we were just a little bit better at. I think technology can assist us with this.

For iPhones and iPads, here are the top 3 free apps.

- 1) What Knot to do
- 2) Knots 3D-Free
- 3) Knots (made by the Navy)

For iPhones and iPads, here are the top 3 paid apps

- 1) Grog Knots
- 2) Knots 3D
- 3) Knot Guides HD

For Android phone, here are the top 3 paid apps:

- 1) Animated Knots by Grog
- 2) Knots 3D
- 3) Knot Guide

I used a rating system ranking each app based on the amount of knots, the quality of the pictures, whether or not there was information about the knots, whether it was easy to use and quick to load and did it include the specific knots Girl Guides commonly use.

For more information about how I ranked each app and my findings, please feel free to email me nelliemair@gmail.com

Happy knot tying!!

Nellie "Speedy"
